LASER CUT TECHNOLOGY

One of the key elements of a SH+ helmet is the extraordinary fit and wearability . Most of our helmets is provided with internal padding made of the exclusive " laser technology cut" . Thanks to laser cutting, we are able to customize the padding with a surgical precision and a design dedicated to the shape and position of the vents in the helmet.

Uno degli elementi chiave di un casco SH+ è la straordinaria calzata e vestibilità. La maggior parte dei nostri caschi è dotata di imbottiture interne realizzate con l'esclusiva tecnologia "laser cut". Grazie al taglio laser siamo in grado di personalizzare l'imbottitura con una precisione chirurgica ed un disegno dedicato alla forma e posizione delle ventilazioni presenti nel casco.

Eine der herausragenden Eigenschaften der SH + Helme ist die außergewöhnliche Passform und der Komfort. Die meisten unserer Helme sind mit einer Innenpolsterung ausgestattet, die durch die exklusive "Laser Cut Technology" ermöglicht wird. Durch die Verwendung von Lasertechnologie sind wir in der Lage, die Polsterung mit chirurgischer Präzision in einem Design anzufertigen, die der Form und Position der Lüftungsschlitze im Helm angepasst ist.

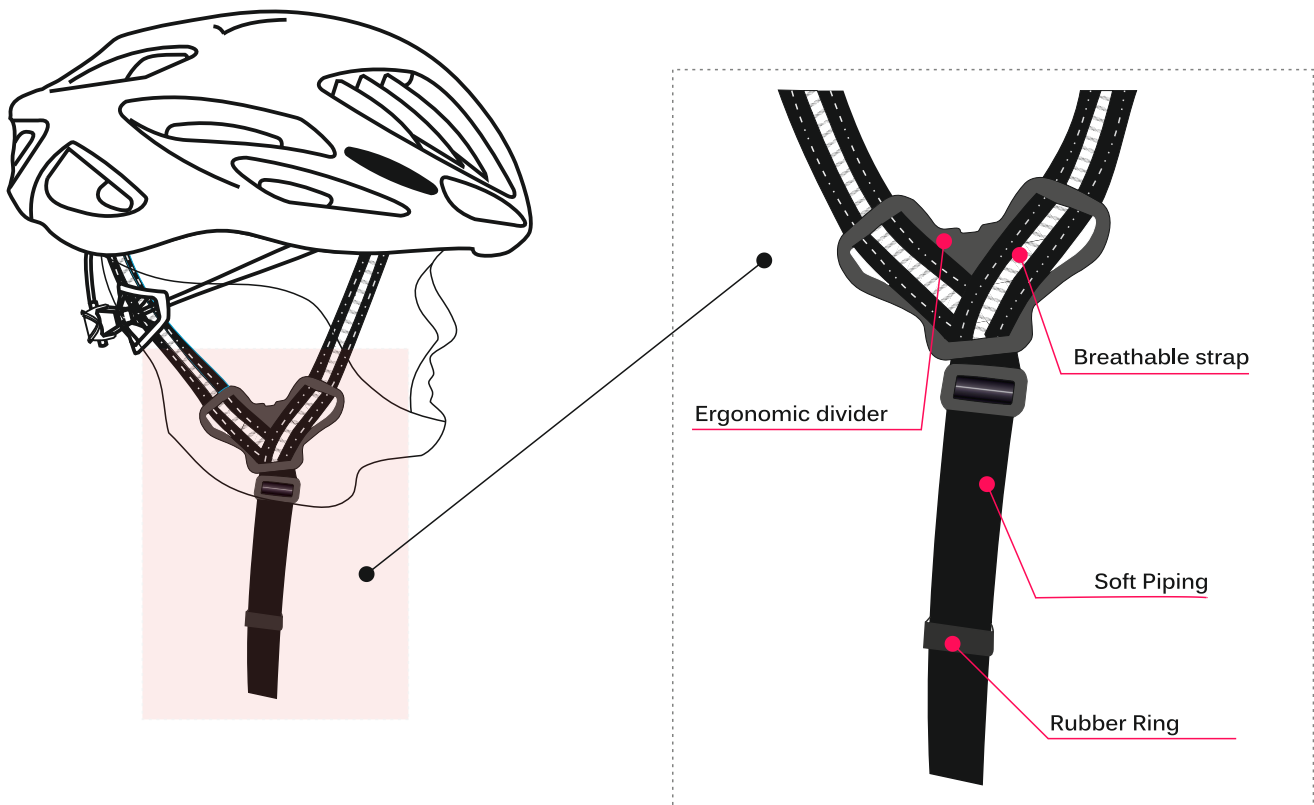

PERFORMING STRAP

Perfect fit : designed by our staff of product, tested by professional athletes , most of our products incorporates extensive conference facilities solutions.

Perfetta vestibilità: progettata dai nostri responsabili del prodotto, testata da atleti professionisti, la maggior parte dei nostri prodotti incorpora soluzioni di comfort eccellenti.

Perfekte Passform: von unseren Mitarbeitern entworfen, von professionellen Athleten getestet; unsere Produkte bieten Lösungen für besten Komfort.

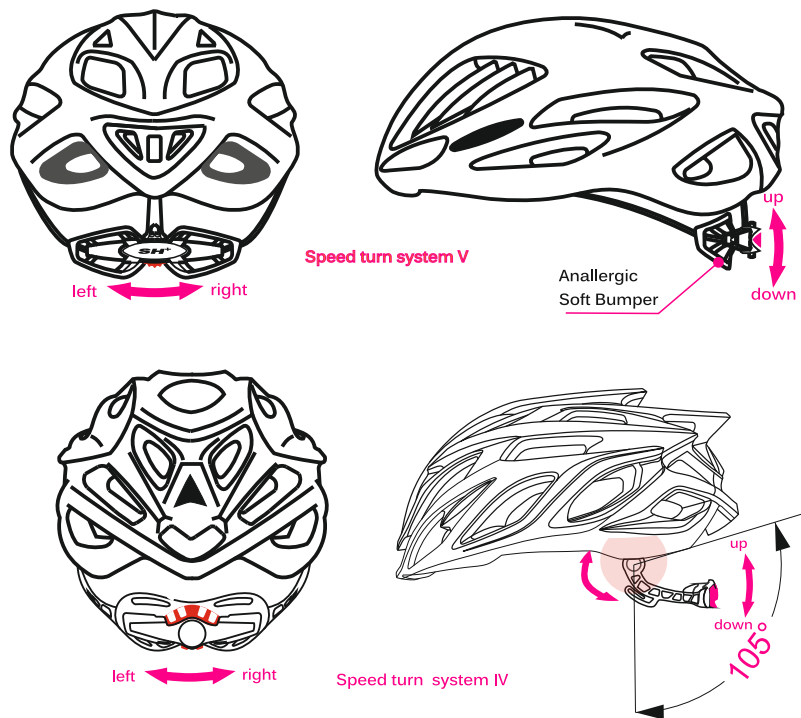

FITTING

One of the key quality element of a SH+ helmet is its maximum comfort. Perfect shaping of the caps, highly-advanced retention systems and internal padding are essential.

Una delle qualità principali di un casco SH+ è il suo massimo comfort. La calzata molto comoda, il regolatore di taglia avvolgente e modulabile e le imbottiture interne sono essenziali per offrire un comfort eccellente.

Eine der herausragenden Eigenschaften der SH + Helme ist das Optimum an Komfort. Die perfekte Form, hochentwickelte Drehsysteme und Innenpolsterung sind entscheidend.

HIGHT VISIBILITY COLORS

Cyclists safety is one of the main goal of SH+. Our helmets are designed to provide the highest standard of performance and safety. All our lines are manufactured with finest materials while bright and fluorescent colors ensure perfect visibility on the road enhancing riders security and drawing drivers' attention.

La sicurezza dei ciclisti è uno degli obiettivi principali di SH+. I nostri caschi sono progettati per offrire i più alti standard di prestazioni e sicurezza. Tutte le nostre linee sono realizzate con materiali pregiati, mentre i colori brillanti e fluorescenti assicurano una perfetta visibilità sulla strada migliorando la sicurezza dei ciclisti e attirando l'attenzione di chi è alla guida di automezzi.

Die Sicherheit der Radfahrer ist eines der Hauptziele von SH+. Unsere Helme bieten ein Höchstmaß an Leistung und Sicherheit. Alle unsere Linien sind aus feinsten Materialien gefertigt. Helle und fluoreszierende Farben sorgen für perfekte Sichtbarkeit auf der Straße und erhöhen die Sicherheit der Fahrer und ziehen die Aufmerksamkeit der Fahrer auf sich.
